FACTORY SELF-AUDIT:

工厂自我审核最低标准

DYERS, FINISHERS, PRINTERS, LAUNDRIES

染厂、后整理厂、印花厂、洗水厂

TO BE COMPLETED BY THE SENIOR MANAGER

由高级经理人员完成

INTRODUCTION 简介

The Marks & Spencer ECP Self-Audit must be **completed** and **submitted every 18 months** by all Dyehouses, Printers and Laundries supplying Marks & Spencer with fabrics and textiles.

所有向玛莎百货供应织物和纺织品的染厂、印花厂和洗水厂都必须每 **18 个月完成并提交**玛莎百货的 ECP 自我审核报告。

This self-audit document reflects the structure and layout of the 4 preceding modules of the ECP (MRSL/RSL, REACH, Minimum Standards & Best Practices, Environmental Management). These modules provide information regarding each section of the self-audit document. Please ensure you and your suppliers have read and understand these ECP modules before proceeding. All questions **must** be answered to ensure the audit accurately represents your facility. In the event of non-compliance, Marks & Spencer reserve the right to cancel orders and return products.

自我审核表体现了ECP政策前四个模块的结构和布局（模块1-限用物质列表MRSL/RSL；模块2-REACH法规；模块3-最低标准&最佳实践；模块4-环境管理）。以上模块为审核表中的相应部分提供信息。审核表中的所有问题全部**要求作答**，以确保审核表充分反映工厂实况。如若有任何违反情况，玛莎百货保留撤销订单和退还产品的权利。

ECP ASSESSMENT PROCESS ECP 评估步骤

Each wet processor will need to be proposed to Marks & Spencer UK by either a Marks & Spencer Technologist or a Primary Supplier (the PROPOSER). The proposer must complete the ECP self-audit on line via the link (<https://supplierexchange1.marksandspencer.com/ECP>)

每个制革厂应当由玛莎百货的技术部或某个基础供应商向玛莎百货（英国）推荐。该提议人必须在线完成完成 ECP 自我审核（<https://supplierexchange1.marksandspencer.com/ECP>）

For more details please see ECP Proposer Guidance;

更多详细信息请见 ECP 提议人指南

<https://supplierexchange1.marksandspencer.com/documents/ecp-self-audit-proposer-guidance.pdf>

The self-audit will be assessed by the proposer and Marks & Spencer UK/Sourcing office. If the audit is approved the wet processor will be issued with a unique Marks & Spencer ECP reference number. The ECP number is valid for 18 months, after which a new audit must be completed online. You will receive a reminder to complete the audit before the 18 month period expires.

自我审核将由提议人和英国玛莎百货（英国）采购办公室进行评估。如果审核通过，将会向湿处理加工工厂发出玛莎百货的 ECP 唯一指代号码。ECP 号码有效期为 18 个月，期满后必须在线完成新的审核。你方会收到相关提醒，要在 18 个月期满前完成下一次审核。

Please note that the completed audits will be used by Marks & Spencer technologists during factory visits to assess on-going compliance to ECP. There will also be a Due Diligence programme in place to ensure that self-audit results are a true and accurate statement of the conditions in the factory. This will consist of a random selection of facilities being audited by Marks & Spencer or a 3rd party.

请注意，玛莎百货技术专家参观工厂之时，审核表将是技术专家评估工厂是否遵守 ECP 规定的依据。同时，玛莎百货也会开展“尽职调查”计划，以确保自我审核表的内容真实准确地反映了工厂情况。被调查的设施设备将被随机抽取，并由玛莎百货或第三方机构进行审核。

IMPORTANT – PLEASE READ**New requirements for ECP approval effective from June 2017****Procedure and Guidelines****重要提示—请阅读****ECP 审批的新要求自 2017 年 6 月生效****程序和指南****Background 背景**

The Institute of Public and Environmental Affairs (IPE) is a registered non-profit organization based in Beijing. Since its establishment in May 2006, IPE has developed a pollution database to monitor environmental performance across several industry sectors – including textiles. IPE's aim is to expand environmental information disclosure to allow communities to fully understand the hazards and risks in the surrounding environment, thus promoting widespread public participation in environmental governance.

公众与环境研究中心（IPE）是一个注册的非营利性组织，总部设在北京。2006年5月成立以来，IPE已经开发了一个横跨多个行业（包括纺织品）的污染数据库，以此来监控环境绩效。IPE的目的是扩大环境信息披露，使社区完全理解周围环境的危害和风险，促使广大公众参与环境治理。

M&S has already been using the IPE website as a useful screening tool to ensure ECP applications are highlighting any previous pollution violations. **M&S is now making public disclosure of PRTR on IPE website a mandatory requirement of the ECP approval process.**

玛莎百货已经使用IPE网站作为有效的筛查工具，以确保能够使用ECP来突显以往任何的污染违规行为。玛莎百货目前正在IPE网站上公开披露PRTR作为ECP审批流程中的强制要求之一。

What is PRTR platform in IPE? 什么是 IPE 里的 PRTR 平台？

The full name of PRTR is 'Pollutant Release and Transfer Register' and they are broadly defined as systems or platforms to collect and disseminate information on environmental releases and transfers of toxic chemicals from industrial and other facilities.

PRTR 的全名是“污染物排放和转移登记”，广义上说，这是一个信息收集和传播的系统或平台，以监管来自工业和其他设施的有毒化学物质的排放和转移。

PRTR on the IPE website consists of an Excel spreadsheet that facilities complete, and includes details such as supplier background details, pollutants, resource consumption and recycling management data.

IPE 网站上的 PRTR 包含一个 Excel 电子表格，需由工厂填写，其中包含了很多细节信息，如供应商的详细背景、污染物、资源消耗和回收管理的数据。

As part of its ongoing commitment to greater supply chain transparency and responsible manufacturing M&S is now making PRTR disclosure on IPE's website a mandatory requirement of the ECP approval process. This addition to the ECP submission process takes place with immediate effect for Chinese wet processing facilities only.

为提高供应链透明度和达到企业责任所坚持的承诺，玛莎百货把在 IPE 网站上披露 PRTR 作为 ECP 审批过程中的一项强制性要求。这项填报 ECP 要求，仅针对中国的湿处理设备立即生效。

If you are M&S partner involved in wet processing, you are now required to disclose pollution data information from your own facility, or outsourced facility, via the PRTR

如果你方是参与了玛莎百货湿处理工艺的合作伙伴，则现要求你方通过 PRTR 公开来自你方的自有工厂或外包工厂的污染数据信息。

Once completed, IPE will conduct desktop data audit to check disclosed data in PRTR against testing report evidence. After data validation, IPE will approve and post the PRTR form to platform.
 一经完成，IPE 将进行桌面数据审核，用测试报告中的数据来验证 PRTR 中所披露数据的真实性。数据验证后，IPE 将批准 ECP，并将 PRTR 表发布到公共平台中。

If your PRTR data is not declared via the procedure below, we will NOT approve the facility's subsequent ECP renewal after 18 months. We will allow 3 months to fully complete the PRTR registration.
 如果你方的 PRTR 数据没有通过下面的程序公开，我们将不会接纳和批核贵司 18 个月后的 ECP 申请。我们将允许你方在 3 个月内完成全部 PRTR 登记的工作。

Please follow below guideline to complete data disclosure in PRTR.
 请按照以下指南在 PRTR 中完成数据公开。
