We believe clothes shouldn’t cost the earth. When you shop with M&S online, you can be confident of our robust approach to sustainable fashion—every click of the way.

BROWSING
We source with care: we’ve started to add information on the sustainability of our clothes’ raw materials to our shopping webpages.

CHECKING OUT
Sparking change together: if you’re signed up to Sparks (our digital loyalty scheme), we’ll donate to your chosen charity every time you shop with us.

PICKING & PACKING
Our Castle Donington distribution centre (where most of our orders are packed) is powered by 100% renewable electricity, 25% of which is generated from solar panels on its roof!

WEAR & RECYCLE
Nothing we make goes to waste: we don’t send anything to landfill.

OUR 35 SPARKS CHARITY PARTNERS INCLUDE:
- Stephen Lawrence Charitable Trust
- Breast Cancer Now
- NHS Charities Together

CASTLE DONINGTON HAS 24,000 SOLAR PANELS ON ITS ROOF. THAT’S THE EQUIVALENT OF 11 FOOTBALL PITCHES!

SHIPPING AND DELIVERY
Our actions today protect the planet for tomorrow: all our products are delivered in bags made from 100% recycled plastic that can be recycled at any M&S store.

WE’RE SAYING GOODBYE TO PAPER DELIVERY SLIPS which will save 140 tonnes of paper each year.

WE’LL ALSO RECYCLE YOUR UNWANTED M&S HANGERS IN STORE. WE’VE RECYCLED OVER 1 BILLION SO FAR!

WE’RE WORKING TO HELP PEOPLE WHO FACE BARRIERS GETTING INTO WORK.

WE VALUE THE PEOPLE WHO MAKE OUR CLOTHES:
we were the first major UK retailer to publish information about every single factory we work with around the world on our website as an interactive map.
